## ABOUT ME

As a creative and passionate individual, I have a strong interest in web development and cyber security.

With my strong technical background and attention to detail, I am dedicated to staying up-to-date with the latest technologies and trends in these fields.

In addition to my professional pursuits, I am also a passionate musician, with a love for playing the guitar.

I am confident that my passion and dedication will bring great value to any organization I work for.

## EXPERIENCE

### Avenue Properties , Mumbai — Web Dev Intern

JUL - AUG 2022

Developed a Marketplace website for the company and optimized it.

### MARS Exploration Pvt. Ltd. — HR Intern

APRIL 2022 - MAY 2022

Helped companies with new candidates and managed their resumes and shortlisted them for their interviews.

### TRYST, IIT Delhi — Campus Ambassador

Jan 2022 - Apr 2022

As a Campus Ambassador, I represent our Event (TRYST) in my university campus and engage with students to spread awareness about our event. I will work closely with our team to plan and execute events, campaigns, and other initiatives to drive interest and engagement among students.

## EDUCATION

### Govt. Engineering College, Bikaner — B.tech CSE

2019 - 2023

B.Tech in Computer Science Engineering degree program focuses on the study of computer systems and their applications.

## SKILLS

1. Proficient in HTML, CSS, JavaScript and jQuery.
2. Experience with responsive design and cross-browser.
3. compatibility Knowledge of React.
4. Familiarity with Git, Github and version control systems.
5. Experience with CMS platforms such as WordPress and Shopify.
6. Ability to write clean, organized and efficient code.
7. Strong understanding of UI/UX design principles.
8. Strong knowledge of Python programming language.
9. Excellent communication and collaboration skills.

## LANGUAGES

I am proficient in HTML, CSS, and JavaScript, with some experience in ReactJS.

I have a keen eye for design and an understanding of how to create visually appealing and user-friendly websites.

I am confident in my ability to work with databases and can develop custom databases using SQL.

And I enjoy solving problems and creating dynamic and interactive websites that

provide a seamless user experience.

## **Rawal Convent School , Faridabad — *class 12***

2018 - 2019

Studied Physics, Chemistry & Maths And learned some new things.

### **PROJECTS**

#### **Weather App with JavaScript — [Link](#)**

A weather app project built with JavaScript can allow users to view current weather information for a location of their choice.

To build a weather app, you can use an API such as OpenWeatherMap or AccuWeather, which will provide weather data in a JSON format.

#### **Portfolio Website — [Link](#)**

A portfolio website created with HTML, JavaScript, and CSS is a personal website showcasing my work, skills, and achievements.

HTML provides the structure and content of the website, CSS is used for styling and presentation, and JavaScript can be used for interactive elements such as navigation menus, animations, and contact forms.
